

**University of Maryland Biotechnology Institute
Center for Biosystems Research
College Park, Maryland**

VACANCY ANNOUNCEMENT

- Title:** Assistant Professor
- Category:** Faculty, Tenure-Track
- Qualifications:** Ph.D. in a biological science or related field with demonstrated ability to do exceptional research in pathobiology with relevance to biotechnology.
- Responsibilities:** Applicants should have strong research programs that address fundamental problems related to biotechnology. Attractive areas of research include, but are not limited to, the study of regeneration, wound healing, stem cells, neural degeneration, aging, cellular trafficking, model systems for human diseases, and host-pathogen interactions. Selected candidate is expected to establish an extramurally funded, independent research program within the setting of an interdisciplinary research institute on a large university campus.
- Salary:** Commensurate with experience
- Position Available:** Upon completion of search
- Applications:** For full consideration, submit a letter of application (referencing **position# 300037**), curriculum vitae, a description of research and teaching interests, copies of pertinent reprints and three letters of reference to:

cbrsrch@umbi.umd.edu
Attention: Faculty Search Committee – Position # 300037
- Closing Date:** Application review will begin on **November 19, 2007** and will continue until a suitable candidate is selected.
