

**University of Maryland Biotechnology Institute
Center for Advanced Research in Biotechnology
Rockville, Maryland**

VACANCY ANNOUNCEMENT

Search Extended – New Applicants Only

- Title:** Assistant Professor (Structural Biology)
- Category:** Tenure-Track Faculty
- Qualifications:** Ph.D. in Biochemistry or related field with postdoctoral experience and knowledge skills in structural biology. Applicants will be considered who have research interests in any area of contemporary structural biology, including biomedical, plant or insect biology.
- Responsibilities:** The successful candidate will be expected to develop a competitive and externally-funded research program using structural biology approaches to address contemporary biological questions.
- The Shady Grove Campus of UMBI includes scientists from the Center for Advanced Research in Biotechnology (CARB; <http://www.umbi.umd.edu/CARB>), the Center for Biosystems Research (CBR; <http://www.umbi.umd.edu/CBR>), and the National Institute of Standards and Technology (NIST). The campus is located in the heart of a major biotechnology community with easy access to the National Institutes of Health and NIST. The successful candidate will benefit from existing strengths in structural biology, biophysical chemistry, and computational biology at CARB, and from research into complex biological systems and pathobiology at CBR. State-of-the art facilities and support for X-ray crystallography and NMR are available at Shady Grove.
- Salary:** Commensurate with experience
- Position Available:** Upon completion of search
- Applications:** Applicants should send their curriculum vitae (referencing **position# 300881**), a summary of future research plans, and names of three references (PDF file) electronically to: carbsrch@umbi.umd.edu
- Closing Date:** Application review will begin on **November 8, 2007** and will continue until a suitable candidate is selected.
